

Here are three things you can do

to reduce medicines waste.

**Open the bag before
you leave.**

Medicines that leave the
Dispensary have to be
discarded.

**Only order what
you need.**

Medicines you don't take
away this time, will be
available in the future.

**Return unwanted and
expired medicines to us.**

This protects the local
waterways, wildlife and
the environment.

**Help us to improve your care, NHS finances and protect
the environment by reducing medicines waste.**

**Open
the bag**

We can all play a part to stop
prescription waste.
